

Dear Mr Powell

I have like many followed this incredible story of television stations forced to show an anti kerry documentary one week before the election.

I do not know whether that is illegal, and what your role as the FCC chairman in this can be, but it seems to me that this is clearly UNETHICAL.

As a result, I would very much respect that you make all the efforts in your power to maintain fairness in the way this upcoming election is being conducted.

Sincerely,

Laure Travers
